## LOCOMOTIVE CONSERVATION AND LEARNING TRUST

**You helped build Britain's  
newest main line steam  
locomotive... now help us  
restore the oldest!**

'J21' No. 65033, built in 1889, is to be restored to main line running order to operate on ANY railway in the country, bringing a unique part of our history back to life. The LCLT is pursuing funding, but we urgently need £50,000 to kick-start the appeal.

All donors giving over £20 (single or monthly in the aggregate) will receive a certificate; over £50: an invitation to the locomotive's unveiling; over £100: their name on a plaque mounted in the interpretation vehicle; over £200: an invitation to a private tour of the restoration progress; over £500: a footplate ride after restoration is completed; and the highest donor, in excess of £1,000, will be invited to light the first fire and ride No. 65033 on its first day of steaming

We welcome single donations and regular donations (minimum monthly donation £5).

You can help further by gift-aiding your donation. Please return the attached form to LCLT, 95a Hambalt Rd, London SW4 9EQ.

The 'J21' needs YOUR help – please help us bring it to life.
